## SILVER MINE OWNERS FORM AN ASSOCIATION

Nogales, Arizona, July 31.—The chamber of commerce has joined with Charles Butters, mining expert of New York and San Francisco, to promote the formation in Mexico of an association of silver mine owners and silver producers to rebuild the abandoned mints throughout the nation and thus bring about once more the free and unlimited coinage of silver. Mr. Butters states that if the oldtime minting plan is re-established it will mean that Mexico will coin 500,000,000 ounces of silver.

The mining expert has extensive interests in mines in Mexico, Salvador and Nicaragua and is known for his introduction of the cyanide reduction process in Mexico. He says that the greatest need in Mexico today is small change and "hard money."

The revolutions and the world war says Mr. Butters have stripped Mexico bare of silver coin. In its place he says is a vast quantity of paper money issued by the varying governments as fight money. He blames the great flood of paper money in Mexico for most of the suffering in that nation in connection with the various revolutions.

His plan, backed by the Nogales Chamber of Commerce, is to have the old mints rebuilt and placed in operation by the association of silver mine interests at the cost of the association and place the mints in operation. Then the costs of the renewed mints would be recovered by the association from the mint profits over a course of years. Upon the paying out of the capital charge in restoring the mints, they are to be returned to the Mexican federal government as its property.

The system, according to the silver mine experts has threefold benefits. First it will at once restore to Mexico the "hard money" and small change needed by merchants, banks and businessmen and now lacking. Second, it will provide a permanent primary market at home for large amounts of silver production. Third, it will stabilize the silver market because the Mexican home requirements will take up a great quantity of silver now exported and sold on the speculative market through San Francisco to the Orient. Also, this will serve to stimulate silver production because of thus raising the primary market price for the semi-precious metal.

President Bracy Curtis of the Chamber of Commerce has named a committee of prominent men to take up the mint proposal with General Alvaro Obregon on his impending visit to his home in Nogales, Sonora, in this month.

Meanwhile the proposition will be submitted by the Nogales Chamber of Commerce to the civic bodies of all other border cities and the officials of border states.

## Disappearing Mountain at Copper Queen Mine

At the outset of the Sacramento steam-shovel operations at Bisbee, of the Copper Queen branch of the Phelps Dodge corporation, the total amount of waste to be removed before the production starts which will be early in 1921, was 6,167,000 cubic yards. Of this 4,370,000 cubic yards was removed by the end of April so that 71 per cent of the waste shipping necessary before production starts was then complete. It is expected at present that steamshovel operations will be ready for steady production early in 1921.

It is estimated that the new mill for handling the concentrating ore from the steam shovel pits will also be complete very early next year, the exact month being dependent on the supply of labor during the remainder of the year and also on steel deliveries.

## Large Shipments Cantaloupes

Cantaloupe shipments from the Salt River Valley July 16 were 57 carloads, according to the bureau of markets report issued by the Mesa chamber of commerce last week. For the first time since the opening of the season on July 1 the daily report states that hauling to shipping points is decreasing. Condition and quality of the fruit is reported as good. Season shipments to July 16 were 835 carloads.

## BRINGING IN GARBANZOS

More than 250 carloads of garbanzos (Mexican beans) were crossed at Nogales the past month and about the same number are yet to be crossed over. These beans are bringing 15c per pound in the United States, and net enormous sums to the farmers of the coast states of Mexico.

"We had the pleasure of stopping at the Barbara Worth Hotel, San Diego, and we want to say right here you will do no better than to stop at this well located, popular hostelry." Huntington Park Signal.

"We can cheerfully recommend the Barbara Worth Hotel, San Diego, as an ideal place to stop; indeed, we want to emphasize the fact that no one will make any mistake if they stop at this hotel." Santa Ana Bulletin.

"It always gives me real and lasting pleasure to endorse anything, clean, especially a hotel; the days I spent at your hotel will always remain in my memory because of the clean hospital-ity your house afforded me. After meeting Mrs. Lane at the desk I knew intuitively that the house was morally clean, and my experience proved the truth of my intuition; there is a peculiar and particular satisfaction in knowing an hotel to which one would not hesitate sending his mother, sister, wife and children alone; to my mind this is the greatest test of any hotel, and I know that your hotel can stand the test, in fact, standing it daily. Wishing you every success, I am, Sincerely yours." Leslie McAuliff, Publisher Porterville Daily Recorder.
